Good Event! Saw a good chunk of our regulars and many many new faces this event! Thanks to everyone who drove in from out of state and out of town to come in and frag the night away with us, it was a blast. Final standings for all the tournaments is on the front page of the site!

Please leave us some feedback on this event so we can improve the next one!

An aside, I am almost tempted to say All our events should be that casual, it was allot of fun all the way around it seemed to me!

Agreed! If I had any complaints, it was that freakin' map! We might as well have played CSS again or something, cause thats not what Deathmatch is supposed to be about.

I will keep it in mind for the next one. I picked the map according to what I have seen in other HL2DM matches at other events.

hehe good no slide tournys..

i haven't really had time to play all of them but i do like the map that is basically a busted up building with no roof and a crap load of objects to throw around.

Really, my favorite map for DM is Killbox (The REAL killbox, not the one we played). Its a big map that combines guns and throwable objects quite well.

Also, when will there be pics up from the event? I'd like to get some pictures of my case mod to show it off on the interwebs! Oh, and there had better be a case mod competition next time that goes on, cause my next mod will be...shal we say...a "killer"
